Over the winter months Accident and Emergency Departments at Hampshire's Hospitals can get very busy. There are many other services that can help if you have a healthcare issue and need NHS help in a hurry...

Minor illness? Ask a pharmacist

Get expert advice on common health problems (coughs, colds, flu, rashes) from your local pharmacist. It may save you a trip to your GP surgery – you don't need an appointment and you can speak in a private area. You'll be advised if they think you need further help.

Minor injury? Find a service near you

You can often be seen more quickly, 7 days a week, for broken bones, sprains and strains, minor cuts and wound infections at:

- Andover War Memorial Hospital (01264 358 811)
- West Berkshire Community Hospital (01635 273 300)

Not sure? Call NHS111 or go online to 111.nhs.uk if you:

- think you might need to go to the Emergency Department or need another NHS urgent care service;
- don't know who to call for medical help;
- need information about a health issue.

5 THINGS YOU CAN DO

1. Keep the Emergency Department free for those with critical or life threatening conditions.
2. Contact NHS111 or your GP practice if you need same day help. Or try your GP practice website for appointment information or online consultations.
3. Get a flu jab – ask at your surgery or pharmacy.
4. Order repeat prescriptions in good time, particularly ahead of bank holidays.
5. Visit www.usetherightservice.com for instant advice and guidance on where to go for help.
