

The car park will be closed for safety reasons. We will allow access for disabled badge holders or those with significant mobility difficulties. Please use alternative transport where possible.

Please come as close to your appointment time as possible. If you can remember your exact appointment time as this will help us find you on the list.

We will be closing the surgery so all staff can have a break between 1-1:30. If you arrive at this time you might have to wait outside.

We have tried to spread out appointments to ensure we get through everyone promptly, but it is a big operation so please be prepared that there might be a wait.

All over 65's will be eligible for covid vaccine as well. Those under 65 might not be. The criteria is set nationally and is out of our control. We will discuss your eligibility on the day. The current covid vaccine is Pfizer.

We will need to get to your upper arm to administer the vaccine. Please think about this when choosing clothes in the morning.
